## Twenty- Fourth Edition - Year 2025

Updated 01 January 2025 (Release 1.45)

List of more than 4.374 Callsigns used in Antarctica since 1945.

*In Antarctica there are no Nations nor Cities, just research Bases. Sometimes those Bases are so big that we can consider them cities. Each base has been categorized under the name of the nation it belongs to and referenced into a unique book called WAP Directory.*

Born originally from an idea of I1HYW & IK1GPG in 1979, the Antarctic Directory has grown as well as the Antarctic Continent's exploration. Our wish was and still is to build a tool devoted to Antarctic Enthusiasts, Hams and followers, to all of those keens who love Antarctica as we do. This job is addressed to the Antarctic Chasers and dedicated to the Researchers, Scientists, Organizations, Governments and Personnel, involved every year in the fascinating Antarctic Adventure, in recognition of their efforts.

The only genuine editions of the Antarctic Directories are those signed by the Authors, or downloaded from the **W.A.P. "Worldwide Antarctic Program"** web sites.

- 1) The **A.R.I.** (Italian Amateur Radio Association), Sezione A.R.I. of Mondovì (Cuneo) supported by **WAP Staff**, issues, starting from Jan.1<sup>st</sup> 2005, to Radio Amateurs and SWLs the **W.A.P. - W.A.C.A. (Worldwide Antarctic Program - Worked Antarctic Callsigns Award)**.
- 2) To get the Award (released in only one category), the applicants must show to have worked and confirmed by QSL cards, at least of **10 different Callsigns** of Ham stations operating from the Antarctic Continent, Peri & Sub Antarctic localities, and Austral Territories, belonging at least to 3 (three) different Nations, as reported on the WAP Directory.
- 3) Contacts could be made complied to rules of Radio Amateur's Service by any of their transmission mode and frequencies bands, therefore on bands, from 2 to 160 metres and on SSB, CW, RTTY, SSTV & Digital modes.
- 4) Contacts made from **15 November 1945** onwards are available.
- 5) Are valid and they will count for a total score of Callsigns, the contacts made with Laboratory Ships, Support Ships, anchored in front of Antarctic Bases, Icebreakers operating from the Antarctic and Sub Antarctic Territories. The score will be calculated based on the number of different callsigns and the Nationality of the Callsigns themselves, referred to the Nations which the Base or the Callsign belongs.
- 6) Antarctic Bases, are mainly geographically located to the South of 60° Parallel of the Austral hemisphere, as listed on the WAP Directory, Antarctic Sector, and grouped by name of the belonging's Nation Peri & Sub Antarctic localities and Austral Territories are **only** those listed on each specified sector of the W.A.P. Directory and grouped by name of the belonging's Nation.
- 7) Each WAP reference, is recognized by three letters according to international and alphabetical "**Country Code ISO 3166**" which identify the nation's code, and a progressive numerical group.
- 8) **WAP Directory** is free downloadable from the web site <http://www.waponline.it>  
It will be updated any time following the evolution of the Antarctic Continent's scientific installation, as well as Sub Antarctic and Austral Territories ones.
- 9) Starting from **Jan. 1<sup>st</sup> 2005** a Database containing a collection of all the known Antarctic Callsign, will be insert on the over mentioned two web sites, in order to simplify any kind of research, from the chasers.
- 10) Any information of Call signs or Bases not present on the WAP Directory, will be welcome. Just send a copy of your QSL card or documentation to the Technical Award Manager (TAM). The call of the helper will be mentioned on the first page of the **WAP Directory** as "**Contributor**".
- 11) For Peri & Sub Antarctic and Austral Territories (as listed on the specified Sectors of the WAP Directory), an identifiable **Sticker** is available, when a "**Full List**" is reached. Full list means to have **at least one Callsign** confirmed for each of the **40 still active locations** chosen among the **43 referenced**. (That's because [GBR-28 Spenceley Glacier Camp](#) active in the year 1982, [ARG-22 Corbeta Uruguay Station](#) and [GBR-30 Candlemas Island Camp](#) active in the year 1964 have been dismantled).
- 12) **W.A.P. - W.A.C.A.** Award is available from OM and SWL following a request addressed to the **Award Manager (Massimo Balsamo, IK1GPG) Sezione A.R.I. of Mondovì, C/o Segreteria, Via Torino 89, I-12084 Mondovì (Cuneo) Italy**. It is necessary to send:
  - a) **Application Form** dated and signed, where the applicant certifies that rules and regulations of his Country have been followed, and a detailed list of the contacts made and confirmed in alphabetical and number's order as: WAP Reference, Callsign, Date of QSO and Time GMT.
  - b) **Photocopy of QSL cards** of the contacts submitted.  
**Note: Photocopies are not necessary** if the "Application Form" is signed by two OMs. It could be possible that occasionally, some QSL will be required for check or in case of dispute.
  - c) **The award fee is 13,00 Euro or 13US\$** (shipping and handling costs for Europe), **15,00 Euro or 15US\$** (shipping and handling costs outside Europe). **It is possible to use PayPal**. Please contact us for further information at [wap\\_info@virgilio.it](mailto:wap_info@virgilio.it)
  - d) **The Sticker "Full List"** is available free on request (just send to the Award manager, **SAE+4,00 Euro or 4US\$** (shipping and handling costs for Europe), **SAE+5,00 Euro or 5US\$** (shipping and handling costs outside Europe).
- 13) The **Technical Award Manager is Gianni Varetto I1HYW**, to whom competes the technical WAP references and up dates. He will also take care of eventual questions and contacts with the chasers.
- 14) The owner of WAP-WACA Awards could use the title to sign their QSL cards and the mail.
- 15) **WAP-WACA Award** consists in a full colour personalized parchment paper (**A3 size 297x420 millimetres**).

- 16) Operators who have to activate or having activated at least a WAP Reference, or operating at any title from Antarctica, has the right to apply WAP-WACA Award signed as **OPERATOR**.

- 20) **Top Honour Roll WAP-WACA** is available for OM & SWL who have achieved the Base Award, the Honour Roll, and subsequently (step by step) shown confirmation of **at least 200 different Callsigns** representing at least 25 Country, including the Green Peace Station, exceptionally considered as a Country, Applicant's must have already issued its **Basic Award** and the **Honour Roll**. The **Top Honour Roll** consists in a Ceramic Plate, hand painted of 280 millimetres in Diameter. **Due to the constant fluctuations in shipping costs for Europe and outside Europe, the cost will be calculated at the time of the request.**
- 21) The **WAP WACA** is conceived and controlled by rules in order to get a modern and simple certificate, by the lowest possible bonds and bureaucracy.  
 The WEB use, is more marked to get a fast, nimble and economic communication.  
 The main purpose is to allow a collection of several different callsigns of **RAS**, even if operating on same Antarctic Base, Sub Antarctic locality or Austral Territory.  
 The rules will allow though, to work the entire solar year, Antarctic DX in any of their specific status such as /P, or /MM or fixed.  
 WAP-WACA is an Award that, by the Peri & Sub Antarctic locations, as well as Austral Territories could be worked by sectors, with particular recognitions, when a "**Full List**" will be reached by any of the over mentioned sector. This is also important as it allows to reach the admittance of the Honour Roll since its first level.  
 Are therefore valid contacts made with Laboratory Ships, Support Ships and Icebreakers, anchored in front of Antarctic Bases or operating from the Antarctic and Sub Antarctic Territories, even if operating with the Antarctic Base's callsigns.  
 For the sector of "Antarctic Referenced Bases, listed on the Directory" the WAP WADA can flow on the WAP WACA, and by using the same Callsign, achieve for the WAP-WADA AWARD itself.  
 So, according to WAP purposes we have early declared by responsible clarity, what we mean as **Antarctic Base** and **Antarctic Radio Amateur's Station**. These kind of rules settle the important concept of "nationality" making it really applicable.  
 No not rules of penalty to the one bad behaving, because one doing that, is already punish by himself giving up her fairness that is main property of any Radio Amateur.  
 This is one of the WAP diplomas entrusting its charm to reliability of efforts for it to get, and easy to be managed.  
 All kind of ships: M/V, I/B, Yachts, Cruise Ships, Cargo Ship, Supply Ship and whatsoever else, sailing Antarctic, Sub and/or Peri-Antarctic waters count for **WAP**, but the contacts with /MM stations are valid only if the ship, at the time of QSO, is really sailing Antarctic and/or Sub-Peri Antarctic waters.
- 22) **Operating Portable Stations in Antarctica.**  
 Stations in the Antarctic Continent, operating portable (such as /P, /A, /M or /**whatsoever else**), non specifically operating from a Base, a Hut or a Camp, will not qualify for WAP-WADA, as they will not be given a Reference number. Same procedure will be adopted for station operating from Antarctica, but of which, locations is not well identified. For this last eventuality in particular, when a clear location will be provided, they will be referenced with a specific WAP Reference number and qualify for WAP-WADA.  
 In the over mentioned cases, these stations will only be valid for WAP-WACA (Worked Antarctic Stations Award), with the same procedure adopted for /MM stations which do not have any WAP reference.
- 23) **WAP Special Events.**  
 Starting from **January 1<sup>st</sup>. 2006** applicants who apply for **WAP WADA & WAP WACA Awards**, can present a maximum of **18 of these** Special Event Callsign, chosen among the list of the **353 referenced Calls actually listed** on the WAP Directory.  
 The launch of the new **W.A.P. A.S.E.A. (Antarctic Special Event Award)**, from ARI CR-Lazio and Section A.R.I. of Cassino, foresees that **ALL** the Special Event Stations will be valid for this specific Antarctic Special Event Award, of which the guide line will be the WAP reference number's list, included on the WAP Directory, under Antarctic Event Station's session.
- 24) **Logbook of the World (LOTW)**  
 WAP Awards Manager IK1GPG together with the Technical WAP Manager I1HYW have agreed that, starting from **January 1<sup>st</sup> 2018**, LOTW confirmations of QSOs will be accepted for WAP Awards: The procedure will just require two separate lists: the one for QSOs confirmed by regular QSL cards and another list with data of QSOs confirmed by LOTW. The final score will be a sum of the two lists.

Enjoy Antarctica.

Ognuno è identificato da tre lettere che sono l'indicativo alfabetico internazionale della nazione di appartenenza, da un gruppo numerico e dalle loro area e coordinate geografiche.
- 7) Ogni referenza W.A.P. è identificata con il "**Country Code ISO 3166**" e cioè da tre lettere che identificano il codice del paese ed una sequenza progressiva numerica.
- 8) La **Directory W.A.P.** è scaricabile gratuitamente dal sito <http://www.waponline.it> e periodicamente sarà aggiornata seguendo l'evoluzione del continente Antartico, delle località Sub-Antartiche, dei Territori Australi, e della ripartizione geografico - politica.
- 9) A far data 01/01/2005 sarà inserito sui due siti WEB un Data Base contenente la raccolta di tutti i nominativi Antartici conosciuti in modo da favorire la ricerca da parte degli appassionati.
- 10) Chiunque abbia informazioni relative a nominativi (Callsigns) non compresi nella Directory W.A.P. è pregato di inviare documentazione o cartolina QSL al Technical Award Manager; il proprio nominativo verrà menzionato nella specifica pagina della Directory in qualità di "Contributore".
- 11) Per i settori Sub & Peri-Antartici ed i Territori Australi listate nella Directory WAP in apposita sezione 2 è previsto il rilascio di un particolare **Sticker** quando sarà raggiunto il "**Full List**", cioè aver confermato **almeno 40 nominativi (Callsign)** per ognuna delle **43 località attive referenziate**, comprese in questa specifica Sezione. (Questo perchè [GBR-28 Spenceley Glacier Camp](#) attivo nell'anno 1982, [ARG-22 Corbeta Uruguay Station](#) e [GBR-30 Candlemas Island Camp](#) attivo nell'anno 1964 sono state smantellate).
- 12) Il diploma **W.A.P. - W.A.C.A.** è rilasciato ad ogni O.M. o S.W.L. che presenterà all'**Award Manager (Massimo Balsamo, IK1GPG)** della **Sezione A.R.I. di Mondovì, C/o Segreteria, Via Torino 89, I-12084 Mondovì (Cuneo) Italia**, quanto segue:
  - a) **L'apposito modulo di richiesta datato e firmato** con il quale il richiedente attesta che sono stati rispettati i regolamenti del proprio Paese e la lista dettagliata dei collegamenti in ordine di referenza, contenente i seguenti dati: referenza WAP, nominativo, data QSO e ora UTC.
  - b) **Fotocopie delle cartoline QSL** relative ai suddetti collegamenti; **Note:** l'invio delle fotocopie delle QSL non è necessario se il modulo di richiesta è vistato da due radioamatori; in ogni caso qualche cartolina potrà essere richiesta per eventuale controllo.
  - c) **Il costo del diploma** è pari a **10,00 Euro** per spedizioni in Italia (**13,00 Euro** oppure **13US\$** per spedizioni in Europa, **15,00 Euro** oppure **15US\$** per spedizioni fuori Europa). E' possibile accreditare l'importo utilizzando Postepay oppure PayPal nelle modalità che potranno essere richieste a: [wap\\_info@virgilio.it](mailto:wap_info@virgilio.it)

Il **Top H.R.** consiste in un piatto ceramico decorato a mano delle dimensioni di 280 millimetri. **Il costo** è pari a **30,00 Euro** quale rimborso spese per spedizioni in Italia; **(a causa delle continue oscillazioni delle spese di spedizione per Europa o Fuori Europa, il costo sarà calcolato al momento della richiesta)**.
- 21) Il diploma **W.A.P. - W.A.C.A.** è stato concepito e regolamentato in modo tale da ottenere un certificato moderno, semplice e con il minimo possibile di vincoli e burocrazia. L'informatica vi è stata privilegiata al massimo per ottenere una comunicazione veloce, snella ed economica.  
 Il suo scopo principale è di consentire la collezione di diversi nominativi (Callsigns) di stazioni di radioamatore anche se operanti da una stessa base antartica o località sub antartica o territorio australe.  
 Perciò, in accordo agli scopi del W.A.P., si è voluto scegliere un diploma di ampia portata con reale possibilità di ampliare a tutto l'anno solare il periodo di ricerca del DX.  
 Il W.A.P. - W.A.C.A. è un diploma che per le località Sub Antartiche e Territori Australi si può lavorare a settori con particolari riconoscimenti quando per la sezione 2 della WAP-Directory, si raggiunga il "full list" che è necessario per l'ingresso nell' Honour Roll sin dal suo primo livello. Sono validi i collegamenti effettuati con Navi laboratorio, Navi appoggio ancorate di fronte alle Basi e gli Icebreakers.  
 Per il settore "Basi antartiche" è previsto specificamente l'apposito W.A.P.- W.A.D.A. (Worked Antarctic Directory Award), ed i nominativi usati per il conseguimento dello stesso possono essere riutilizzati e quindi confluire nel W.A.P. - W.A.C.A. (Worked Antarctic Callsigns Award).  
 Non sono previsti JOKERS né norme penalizzanti per chi non si dovesse comportare bene poiché già si auto punisce colui che viene meno alla lealtà, che è la principale prerogativa di ogni radioamatore.  
 E' questo uno dei diplomi W.A.P. che affida il suo fascino alla serietà degli sforzi per conseguirlo e per bene amministrarlo.  
 Imbarcazioni di ogni genere: Navi, Rompighiaccio, Yachts, Mercantili, Navi oceaniche da ricerca, Navi passeggeri, velieri e quant'altro che navighino in acque Antartiche, Sub e/o Peri-Antartiche contano per il Diploma WAP-WACA, purché al momento del QSO con la stazione /MM la nave si trovi realmente in acque Antartiche, Sub e/o Peri-Antartiche.
- 22) **Stazioni Portatili in Antartide che non trasmettono specificatamente da una Base o Campo Remoto.**  
 Se la stazione in **/A** o **/P** o **/M** o **/qualsiasi altra cosa**, opera da una Base, da un Hut, da un Camp, ecc., verrà accreditata per i diplomi WADA e WACA, in caso contrario, se le coordinate indicate sulla QSL o se le informazioni in nostro possesso non consentono di identificare con certezza una Base, la stazione varrà solo per il WACA, non per il WADA. Lo stesso dicasi per stazioni delle quali è certa la presenza in Antartide ma non è chiara la località. Queste stazioni, quando di esse si sarà chiarita la posizione, diventeranno una nuova referenza WADA, in caso contrario saranno solamente valide come WACA, e non avranno una Referenza WAP, come già avviene per le stazioni /MM.
- 23) **WAP Special Events.**  
 A far data **01/01/2006** si potranno presentare come accreditato per i Diplomi WAP WADA & WAP WACA solamente **18 referenze**, scelte nella lista delle **353 fino ad ora disponibili** nella specifica Sezione della WAP Directory. Il lancio del Diploma **W.A.P. A.S.E.A. (Antarctic Special Event Award)**, da parte dell'A.R.I. C.R.-Lazio e dalla Sezione A.R.I. di Cassino, prevede infatti che le Special Event Stations siano **tutte** valide per l'ottenimento di questo specifico Diploma, del quale farà riferimento la lista delle Referenze WAP inserite nell'apposita sezione della Directory.
- 24) **Logbook of the World (LOTW)**  
 WAP Awards Manager IK1GPG insieme con il Technical WAP Manager I1HYW hanno concordato che, con decorrenza **01/01/2018**, i QSO confermati con LOTW saranno validi per il diploma WAP: La procedura richiederà due liste separate: una lista per i QSO confermati con tradizionale QSL cartacea e un'altra lista con i dati dei QSO confermati con LOTW. Il totale del punteggio sarà la somma delle due liste.

- 20) **Le Top Honour Roll W.A.P. – W.A.C.A.** est disponible pour tout OM ou SWL ayant confirmé **au moins 200 Indicateurs différents** représentant au moins 25 Pays, y compris « Green Peace Station » considérée exceptionnellement comme Pays. Il représente une assiette céramique décorée à la main d'un diamètre de 280 mm. **En raison des fluctuations constantes des frais d'expédition pour l'Europe et hors Europe, le coût sera calculé au moment de la demande.**
- 21) Le **W.A.P. - W.A.C.A.** est conçu et contrôlé selon des règles afin d'obtenir un certificat moderne et simple, avec le minimum d'obligations et de bureaucratie. L'informatique a été privilégié au maximum afin d'obtenir une communication rapide, plus aisée et économique.  
 Son but principal est de permettre la collection de plusieurs indicateurs différents de stations radioamateurs, même opérant d'une même Base Antarctique ou localité Sub Antarctic ou Territoires Australs.  
 Les règlements permettront de trafiquer l'année solaire entière, Antactic DX que ce soit en /P, /mm ou en fixe.  
 Le W.A.P. – W.A.C.A. est un diplôme qui part les lieux Péri, Sub Antarctique et les Territoires Australs, que l'on peut contacter par secteurs avec des reconnaissances spéciales, lorsqu'une liste complète sera atteinte pour chacun des secteurs mentionnés. C'est aussi important car il permet d'atteindre l'accès à l'Honour Roll depuis son premier niveau.  
 Il y a des contacts validés fait avec des bateaux laboratoires, des bateaux support, des brise glace, encrés devant des bases antarctiques ou opérant a partir de territoires antarctique ou sub antarctique, même s'ils opèrent avec l'indicateur de la base antarctique.  
 Pour le secteur des « Bases Référencées Antarctiques, inscrites sur le directory » le W.A.P. - W.A.D.A., peut amener vers le W.A.P. - W.A.C.A., et en utilisant le même indicatif, aboutir au diplôme du W.A.P W.A.D.A.  
 Il n'est prévu aucune pénalité pour mauvais comportement. Il faut respecter les règles prérogatives des radioamateurs. C'est un des diplômes W.A.P. confiant son charme à la fiabilité des efforts pour obtenir ce diplôme et le gérer facilement.  
 Bateaux de tout types: Bateau, BriseGlace, Yachts, Bateau de Recherche Océanographique, Bateau pour passagers, bateaux de navigation et ainsi de suite et l'exploitation dans les eaux antarctiques, sub ou péri-Antarctique sont valides pour le diplôme WAP-WACA, à condition que, au moment QSO avec la station / MM le bateau est vraiment dans les eaux antarctiques, sub ou péri-Antarctique.
- 22) **Stations portables en Antarctique :**  
 Les stations portables en Antarctique qui ne transmettent pas spécifiquement d'une Base ou d'un camp lointain ; si la station est portable **/P, /A, /M** ou **/quelque chose** d'autre sera accréditée pour le diplôme W.A.D.A. et W.A.C.A. Dans le cas où les coordonnées indiquées sur la QSL ou si les informations en notre possession ne permettent pas d'identifier avec certitude une Base, la station sera valable uniquement pour le W.A.C.A. et non pour le W.A.D.A. Même cas pour la station dont la présence est en Antarctique mais dont la localité n'est pas claire. Dans ce cas, lorsque la position sera clarifiée, elle deviendra une nouvelle référence W.A.D.A. dans le cas contraire ou la position ne peut être clarifiée elle sera valable seulement comme W.A.C.A. par conséquent ne possèdera pas de référence W.A.P. comme il est déjà arrivé pour les stations /MM.
- 23) **W.A.P. Spécial Evènement :**  
 A compter **du 01/01/2006**, il est possible de présenter en accréditation pour le diplôme **W.A.P. – W.A.D.A. et W.A.P. – W.A.C.A.** au maximum **18 références** avec l'indicateur Spécial Evènement détaillé dans la liste des **353 références « call » actuellement listé** dans le WAP Directory. Le lancement du Diplôme **W.A.P. – A.S.E.A. (Antarctic Special Event Award)** de l'A.R.I. C.R. Lazio et de la session A.R.I. de Cassino, prévoit en fait que toutes les Stations Spéciales Evènement seront validées pour l'obtention de ce diplôme spécifique dont fera référence la liste des références WAP insérée dans la session spéciale du W.A.P. Directory.
- 24) **Logbook of the World (LOTW)**  
 WAP Awards Manager IK1GPG ensemble au Technical WAP Manager I1HYW ont établi que à partir du **01/01/2018**, les confirmations de QSOs avec LOTW seront acceptées pour les diplômes WAP: La procédure nécessite que deux listes distinctes: la première liste pour les QSO confirmée par les QSL en papier et une autre liste avec les QSO confirmées en LOTW. Le score final sera une somme des deux listes.

Enjoy Antarctica.
