**For the Polar ship hunters:**

**Polar ship and Icebreaker**

Hunters are still looking for the Argentinean I/B *Almirante Irizar* which is sporadically reported active; look for LU2AIB and LU2AIB/MM even if it's not easy to get it from EU.

Icebreaker *Ural*, UA1ZMG/MM has been recently reported active.

Here below the QSL (TNX F6EPN-Spraley Woody).

**Gen. Carrera Province-Chile**

Aysén Region is one of Chile's 16 first order administrative divisions. General Carrera Province is one of the most rare Provinces to be worked on the Peri Antarctic Areas of Chile. The only Ham resident in there is CE7TAU bit it's very difficult to reach him and set a sked!

Cesar, CE7TAU is located at Chile Chico, Chile QTH Locator - FE43dk.

QSL via CE7TAU, LOTW, eQSL. QSL direct to:

Cesar Urbina Galvez, Santiago Ericksen 150, Chile Chico, 6050000, Chile.

**New entry on WAP WADA Directory:**

## WAP QSL Gallery

WAP Antarctic QSL gallery has gone!

It was hosted on a server that have quit its archive system so we have practically lost the whole job! I1HYW have all the cards in his computer, but really he doesn't know how and where load all of them in a safe and cheap site.

Bob, K4MZU suggests us to go through Greg Cogar VK2GJC, the owner of a company in Australia. Greg, said that there are many free plugins we could use for an image library: <https://en-au.wordpress.org/plugins/>.

We would need to install and configure the plugin and learn how to use it to achieve.

This is a job that probably we will carry on in the winter time, but for now we thanks immensely Bob K4MZU and Greg Cogar VK2GJK for their friendship and help.

In the mean time, thanks very much to all those Hams who are sending scan copies of their cards, or scan copies of old cards from their friends.
